Office Action Summary

The election of species requirement over routes of administration is withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23-39 are rejected under 35 U.S.C. 102(b) as being anticipated by Tarara et al.

Tarara et al teach a powder comprising an active, a surfactant and a blowing agent (abstract). Particles 2.5µm in diameter are specified (column 23 lines 9-11). Solutions of active in water are disclosed (column 48 lines 17-18). Dissolved salts are disclosed as blowing agents (column 19 line 52). Perforated microstructures are specified (column 4 line 60). Albuterol (column 14 line 11) and growth hormones (column 14 line 20) are disclosed pulmonary delivery is specified (column 4 lines 47-49).

The blowing agent has the same pore-forming purpose as disclosed by applicants (page 18 line 24). Applicants disclose water as a volatile solvent (page 17 line 14). As to the claimed routes of administration, the limitation "suitable" renders the claimed routes as merely intended uses. As to the claimed properties of tap density and surface area, they must be possessed by the anticipatory composition because it is the same composition as that claimed.

No claims allowed.

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 6/28/03 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
